PROFESSIONAL SUMMARY

Passionate Technical Project Manager with experience coordinating cross-department participation and achieving project success. Proven ability to improve software both hands on as a developer and through driving collaboration as project manager. Proficient in Java, C#, HTML, CSS, Python, JavaScript, React, SQL, Jira and more.

EXPERIENCE

B&H Photo Video

Manhattan, NY

Technical Project Manager

July 2022–Present

- Lead of a three person Web Operations team, responsible for overseeing all web-related requests. Our core responsibilities include: collaborating with business stakeholders on prioritization and requirements gathering, working with development team leads on technical details and effort estimation, and creating monthly sprint plans. We also serve as the main point of contact throughout development and QA processes, and ensure the final product aligns with business requirements before deployment.
- Manage the off-site team which develops our iOS app, creating their monthly sprint plan, acting as point of contact for all of the team's questions, and meeting weekly with the team for progress reports.
- Began as junior on WebOps team and was promoted twice to current position leading the team as project manager.

Jewish Content Network/Yidpod

Hybrid (Online/Brooklyn, NY)

Software Developer Intern

February 2022–June 2022

- Maintained and improved the front end of YidPod the app.
- Improved the user experience of the front page of the app by making it clearer and easier to use.
- Helped fix bugs that users reported.

HASC Center

Brooklyn, NY

Senior Weekend Direct Support Professional

November 2019–February 2022

- Lead of a team of three to manage a home of individuals with special needs on most weekends.
- Assist the individuals with their activities of daily living, while helping them work toward their goals.
- Promoted to Senior with responsibility of training new staff to develop a familiarity with the individuals of the home, and train substitute staffing for the home.
